

[ISEI]

Immersive Software Engineering

*Turning **curious, creative people** into the best software engineers in the world*

To do this we need the best:

- Professors
- Facilities
- Teaching methods
- Residency Partners
- Research

Be a part of this ground-breaking program –

We offer a competitive salary, a generous built-in research start-up package, research-active colleagues who care about transforming computer science education, and massive autonomy over vast areas of an innovative new venture.

Studio-based Learning

Join us and inspire a new generation

Features:

- Low Student : Teacher ratio
- Intensive blended delivery
- Problem based learning
- Peer supported learning groups
- Extended academic calendar
- Novel academic structure:
 - Move from independent modules to coherent blocks covering a central theme and governed by an overarching project
 - A block is delivered by a teaching team of 4-5 academics with support from teaching assistants

Research

Help shape a rapidly growing research ecosystem supported by industry's innovators

ENTERPRISE
IRELAND

* This list of partners is still growing!

An aerial photograph of Limerick, Ireland, at dusk. The River Shannon flows through the center of the city, with several bridges crossing it. The city lights are visible, reflecting on the water. The sky is a mix of orange and blue, indicating the time is either dawn or dusk. The overall scene is a panoramic view of the city and its surrounding water.

Your new home

Limerick was established in 922 AD, and is now viewed as Ireland's cultural, artistic, and most recently, digital hub, as it hosts a wealth of industry players and innovators in the technology space. It is also a key contributor to theatre, literature, comedy and the visual arts.

Limerick lies on the River Shannon in the centre of Ireland's Mid-West Region. The city is immersed in history, yet is becoming known as much for its dining scene and street art as it is for its castles, cathedrals and museums. Limerick is also part of a major EU funding initiative to become a 'smart city' in an effort to build a sustainable region where digital technologies improve quality of life, empower communities and enable economic growth.

Things to do

- Grab a pint
- Tour Limerick
- Go sightseeing
- Hop on your bike
- Listen to live music
- Go to a rugby match

Your new workplace

The University of Limerick (UL) campus is located on the banks of the River Shannon and enjoys an unspoiled natural environment blended with state-of-the-art teaching and research facilities.

With close to 16,500 students, including more than 2,000 international students each year, UL is a young and enterprising university with a proud record of innovation in education and scholarship. A survey of Irish students recently voted UL Ireland's most popular university with a satisfaction rating of 85%.

With strong links to business and industry, UL excels at translational research which aims to accelerate the practical application of academic research to benefit society. UL houses some of the most innovative and successful research centres in Ireland.

Cafes, restaurants, student and faculty accommodation options and a range of on-campus facilities provide an outstanding student experience and a stimulating working environment.
